

Nuova Simonelli Musica "HX" espresso machine

Features & Benefits

The **Simonelli Musica** is a "heat exchange" (HX) type of home or office machine, back-lit or black or with a stainless steel body to compliment any décor.

Like a commercial machine, this semi-commercial or "prosumer" espresso machine allows you to create perfect espresso and **SIMULTANEOUSLY** access powerful, virtually endless steam pressure for incredibly fast cappuccino or lattes. The full-motion, multi-jet steam wand easily locks for continuous steam or pulses for instant cleaning, and incorporates Simonelli's professional and sought-after "latte art" tip. As well, you have **SIMULTANEOUS** access to hot water for Americano, tea or other uses.

The **Musica's** sound-insulated and pressure-regulated pump - combined with the unique Simonelli thermo-compensated brew group - delivers water to the portafilter with the most stable and consistent pressure and temperature, for the richest espresso and crema. And single or double shots (and hot water) can stop automatically when using one of the **Musica's** several programmable buttons.

- ✓ 58mm ergonomic commercial brass portafilter and group for rich, hot espresso
- ✓ Solenoid valve system instantly releases pressure from group for dry coffee pucks and fast re-use
- ✓ Full-motion, multi-jet stainless steel steam wand with latte art tip, for fast micro-foamed milk at the same time as you are brewing your espresso
- ✓ Steam control lever easily locks for hands-free steaming, or pulses for cleaning
- ✓ Large 2-litre 1200 watt copper & brass boiler for abundant steam pressure and instant hot water
- ✓ Boiler primes itself from the 3-litre water reservoir with safety shut-off, so it can be left on longer
- ✓ Cup-warming surface on top to heat your cups

Colour Choice

Stainless Steel in Back-Lit or Black

Height: 43cm/17" - Width: 32cm/10.5" - Depth: 40cm/15.75"
